Summary

An undergrad in the vast digital world of development. Looking for new ideas and knowledge at every moment. Loving it all.

Currently, I'm into DSA and ReactJS trying to add more skills to my ever-increasing arsenal.

Looking to contribute to different projects and more opportunities.

Experience

Contributor

GirlScript Winter of Contributing

Sep 2021 - Present (1 month +)

I have been a part of the GWO'C'21 and started contributions to the field of Frontend Development with React Framework and HTML, CSS along with C++.

This is my first time contributing into documentation that too into the largest one being created. Looking forward to make lots of great documentations and being a part of this initiative to the core.

Outreach Lead

Hackodisha

May 2021 - Sep 2021 (5 months)

An amazing experience working to make one of the biggest hackathon eastern India has ever seen.

Leading the outreach team has been great opportunity and opened a path to new skills.

This increased my soft skills as I managed a team in outreach and communicated frequently with professionals from all around.

Also, I have made minor contributions to the Website.

Education

National Institute of Technology Rourkela

B.Tech, Computer Science

2020 - 2024

The course itself is a multitude of knowledge and till now along with the usual course I am a part of the EB of Webwiz, the official Web Development club of NITR which has been providing me guidance in webdev and other aspects of a web application

Licenses & Certifications

Course Certificate for C+ - Sololearn

21700401-1051
